

## SPECIFICATION

- Part No. : **MA252.A.LB.001**
- Product Name : Sentinel Adhesive Mount 2in1 GNSS & LTE Antenna
- Feature : Ideal for IoT and Automotive Applications  
Small Size, High Performance  
1\*LTE (2G/3G/4G) Antenna  
1\*GPS-GLONASS-BeiDou Active Antenna  
IP67 Waterproof  
High Efficiency  
Low Profile Housing – Only 14mm in Height  
2M CFD-200 and RG-174 Cables  
SMA(M) Connectors  
Dims: 139\*76\*14mm  
**RoHS Compliant**

## 1. Introduction

The MA252 Sentinel 2in1 LTE and GPS/GLONASS/BeiDou L1 Antenna is an omnidirectional, fully IP67 waterproof external M2M antenna for use in telematics, transportation and remote monitoring applications worldwide. It is designed to be mounted directly on glass or plastic in the interior of vehicles.

It is the smallest high performance solution in the market, 50% smaller than the previous generation, with higher efficiency and wider bandwidth to cover emerging LTE bands. Its performance is comparable with much larger permanent roof mount antennas and now offers a convenient and economical alternative in-cabin mounting solution.

Typical applications include;

- HD video over LTE
- First Responder and Emergency Services
- Automotive vehicle tracking
- Telematics

It is mounted via high quality, first tier automotive approved, 3M adhesive.

In-house world leading dielectric ceramic antenna technology inside allows for smaller size antennas without loss in efficiency. It delivers powerful performance for worldwide 4G LTE bands at 700MHz/800MHz/1700MHz/1800MHz/2600MHz, plus GPS-GLONASS-BeiDou for next generation location accuracy.

4G wireless applications demand high speed data uplink and downlink. High efficiency is necessary to achieve the required signal to noise ratio and throughput required to solve these challenges. Taoglas also takes care to have high isolation between the two MIMO antennas to prevent self-interference. Low loss cables are used to keep efficiency high over long cable lengths.

The IP67 waterproof housing measures just 139\*76\*14mm with 3M foam adhesive. The antenna can be mounted internally or externally on a vehicle. The LTE coaxial cable is 2m low loss CFD-200 with SMA(M) connectors. The GPS-GLONASS-BeiDou cable is RG-174 with SMA(M) connector.

Customized cable and connector versions are also available. The antenna also comes in a 3in1 2\*LTE MIMO and GNSS or a single LTE only variant. Contact your regional Taoglas sales office for support.

## 2. Specification Table

4G/3G/2G Antenna								
Frequency (MHz)		LTE700	GSM850	GSM900	DCS	PCS	UMTS1	LTE2600
		698~803	824~894	880~960	1710~1880	1850~1990	1920~2170	2490~2690
Efficiency (%)

## 6. Application Note

Taoglas provides antennas with different cable lengths and various base mounting options to indicate its performance to act as a reference for a customer’s design.
